MS NIBRS Certification Assessment

The intent of this certification assessment is to gain an understanding of the capabilities that exist in your agency with regards to collecting and reporting crime incident data according to the FBI's NIBRS standard. Mississippi follows the FBI's NIBRS standards and does not have any additional incident-based reporting requirements.

The following questions are intended to help identify and understand the existing Records Management System used by your agency to capture and report NIBRS data. Answers to these questions will assist the MS NIBRS division in understanding the NIBRS reporting capabilities of your agency.

Instructions: Please complete this questionnaire for each system your agency uses that may provide incident information in support of reporting data according to the NIBRS standard. You should complete this assessment form based upon the operation and structure of your Agency's current RMS. Please answer questions to the best of your ability. If any question is not applicable to the particular system, please write "N/A".

Overview
This section asks about the name of the system being assessed and the primary functions and users of the system.

1. What is the name of the existing Records Management System (RMS)?

2. Was the system built in-house or acquired from a vendor?

3. Which version of the NIBRS technical specification is applied in your system (3.0, 3.2, 2019.1, 2019.2.1?

4. Who are the system users? (e.g., officers, supervisory personnel, investigators, records staff, crime analysts, etc.)

NIBRS-Specific Requirements

The section asks about specific elements of the NIBRS data standard and the ability of the system to collect and store data according to this standard.

5. Please respond to your system's ability to meet the primary aspects of the NIBRS standard.

NIBRS Standard Requirement	Check if meets the standard	Describe, if necessary
Able to collect information about all offenses in an incident	☐

7. Does the application or system enforce any of the NIBRS data edit and validation checks at the time of data entry? The full list of data edit checks is available in the current NIBRS Technical Specification available at https://www.fbi.gov/about-us/cjis/ucr/ucr-program-data-collections#National.

8. Does your current system create or have the ability to create a NIBRS report/export file (Yes/No)?
   a. If yes, in what format (Flat file/XML)?

Staffing/Resources

The purpose of this section is to understand how data is entered into the system and the extent to which staff members in your department can work within the system.

9. How is crime incident data currently entered into this system? By an officer? By a central data processing staff? Include all points for data entry.

10. Is any of the data first collected via a paper form and then entered into the system or is it entered straight into the system?

Notes:
